Yichen Du
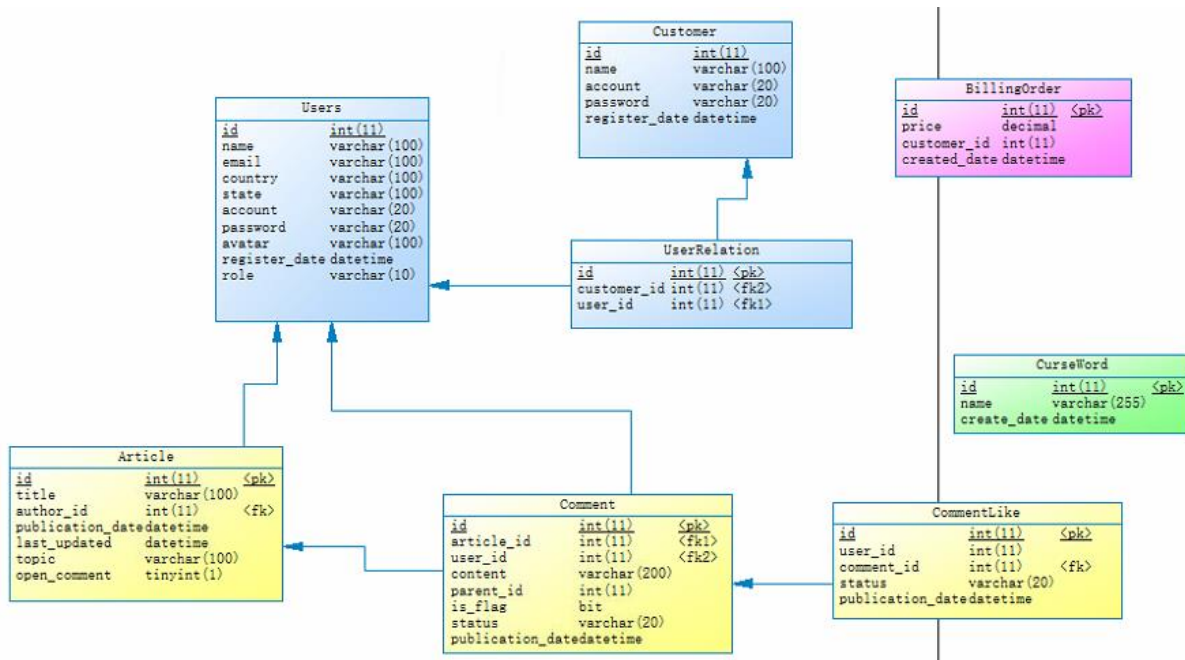

README

My user comments management project is named as "commentservice". It is implemented by using phpMyAdmin. It contains the following entities and relations:

==

This is the home page of the website: http://localhost/commentservice/

show statistic

Account

UserName [   ]   Password [   ]
[log in]

You can log in by enter the correct username and passwords.

You can manually choose to log in as a "customer" or a "user".

The login path for customer is: http://localhost/commentservice/index.php?c=customer&a=login;

For user: http://localhost/commentservice/index.php?c=user&a=login

For example, here, we use the account "test; 123" to log in as a customer:

show statistic

Account

UserName test   Password •••

log in

✓ successful

After login, we can see all articles that the customer published:

show statistic
Add article

	Title	Topic	Public Date	Open For Comment	Comment List
1	123qwerty	yes	2019-12-03 00:27:08		Check
2	Dolorem vel minus soluta sed corrupti adipisci.	Dolore labore quas illo.	1971-04-20 20:07:02		Check
3	Exercitationem et velit vel enim veritatis ab.	Eum minus repellendus rem.	1970-02-20 12:26:08		Check
4	Iste itaque et tempore dolorum omnis suscipit.	At eveniet occaecati sunt.	1970-05-29 23:38:25		Check
5	Quas ut doloribus autem rerum tempore est.	Eum temporibus molestiae adipisci fuga.	2016-10-26 19:19:41		Check

http://localhost/commentservice/index.php?c=article&a=add

Here, we added a new article named "qwerty" and with comment open. (If you selected "NO" during adding an article, you could still set it "open for comment" after.)

Yichen Du

It does not have any comment yet at this point.

show statistic back

	UserName	Content	Public Date	Is Flag	Derogatory

For now, we go back and log in as a regular user:

show statistic

	Title	Topic	Public Date	Open For Comment	Comment List

As a regular user, you can check comments of articles as well as add new comments:

show statistic back content: [this is a new comment] submit

Yichen Du

Here's what we get:

show statistic back add comment

	UserName	Content	I like?	Public Date	
1	Tessie Hyatt	this is a new comment	like / dislike	2019-12-03 12:38:39	Reply

Then, lets log in as a senior user (user1; 123456).

It will shows the exact same thing as it does for regular users:

show statistic

	Title	Topic	Public Date	Open For Comment	Comment List
1	qwerty	nice	2019-12-03 11:30:10	YES	Check

Yichen Du

But when you check the comment list, you can use a new feature: "check flag comments".

show statistic back add comment check flag comments

	UserName	Content	I like?	Public Date	
1	Tessie Hyatt	this is a new comment	like / dislike	2019-12-03 12:38:39	Reply

The comment was not flagged, so nothing showed here.

show statistic back

	UserName	Content	Public Date	Is Flag	Derogatory

If a user added a comment that contains certain words in "curseword" table, it will be flagged for senior users to check. Here, we use the regular user to add other comments.

show statistic back add comment

	UserName	Content	I like?	Public Date	
1	Tessie Hyatt	esse	like / dislike	2019-12-03 12:43:07	Reply
2	Tessie Hyatt	qwerty123	like / dislike	2019-12-03 12:42:51	Reply
3	Tessie Hyatt	this is a new comment	like / dislike	2019-12-03 12:38:39	Reply

We can see that this comment is flagged because it is triggered

show statistic back

	UserName	Content	Public Date	Is Flag	Derogatory
1	Tessie Hyatt	esse	2019-12-03 12:43:07	YES	YES / NO

curseword	←T→	▼	id	name	create_date
	☐ ✏ Edit ᴣ᷍ Copy ⊝ Delete		1	esse	2000-02-06 03:49:07

Yichen Du

So, if a senior user mark this comment as NOT derogatory, it will no longer be flagged; otherwise, the comment will be removed.

Yichen Du

By click the left-top "show statistic" button, we can view the traffic the project manages.
